

June 29, 1983

Dear Bob,

In response to your letter of June 22, 1983; concerning our efforts to make available past WSC minutes and historical data; we will, of course, comply with your wishes. I am personally somewhat surprised and concerned about the format and content of your letter; but let us set games, personalities, and politics aside for once. The only thing I would ask is that you review your WSC policy statement that W.S.O., Inc. should be the "sole" source of "other written material" for N.A., and consider its effect on our service structure. In this context, this directive would preclude any service committee or member from printing, publishing, and distributing minutes, newsletters, reports, etc. and place this burden entirely on W.S.O., Inc.

I hope your 2nd administration is as productive as your first and that your personal life is happy and calm.

Love,

Greg
