Van Nuys, CA 91406 (818) 780-3951

March 1984

DEAR FRIENDS:

Enclosed with this letter is the first update of the World Directory of N.A. meetings. Your Directory was mailed in January along with a letter explaining about the update system. This first update is being sent without cost to you.

After you review the update, you will easily understand the tremendous job it is to keep track of changes, deletions and new meetings. There are over 350 new meetings, only 20 deletions of meetings and many changes in time or place. The net increase in the number of meetings (320) represents a 11.6 percent growth. This increase took place between October 1, 1983 and March 1, 1984!

There has probably never been a period of such rapid expansion. The prospect of a continuation of this rate of growth of meetings and the Fellowship are excellent. Each of the following quarterly updates will most likely reflect 250 or more new meetings. You will undoubtedly want to subscribe to the update service to keep track of new meetings reflected in each each new update.

The update packet is done in two sections. The first section reflects changes on pages where only one or two changes are necessary. For this section you should make a notation on the appropriate page of the existing pages that there is new information. A notation such as "see 3/84/---- update" might be useful. In the place of the dash marks, you should show the name of the town or otherwise identify the specific change. This easy reference system will allow you to keep your directory up to date and not miss new meetings.

The second portion of the update consist of page substitutions. Remove and destroy the appropriate white page from your existing directory and insert the appropriate pages from the pink update. Where there is now more meeting information than would fit onto single page reprints, additional pages with letters were added.

For your convenience, these can be inserted in sequence following the page with the same number.

Future updates will follow the same format and system. Each future update will however, be on a different color paper to make sequential changes easy to identify. The next update will be available in June 1984.

If you have not already subscribed to the update service so you can receive future updates, complete the attached subscription form and return to our office.

Yours in service to the Fellowship
