Van Nuys, CA 91409

FORWARD

This edition of the World Directory is divided into three volumes based on a geographical division of the Fellowship. Volume I includes registered meetings in states which are east of the Mississippi River. Volume II includes all states west of the Mississippi River. All non-U.S. meetings are listed in Volume III. This division is meant to be a convenience to the users of the World Directory.

These three volumes represent over 6,550 N.A. meetings in 35 countries. This is an increase of 2,850 registered meetings (77%) since February 1985.

This printing of the World Directory incorporates the most up-to-date information received by the World Service Office as of the printing date. The directory itself will be updated on a weekly basis in our computer system. However, we will no longer be sending updates out on a subscription basis. Instead, we will publish the World Directory on a yearly basis. This system should prove more efficient and may avoid many of the problems which have occurred in the past.

This printing includes information regarding N.A. service offices which have been verified as being permanent physical offices of an established area or regional service committee. There are undoubtedly other offices in existence, but as of press time we did not have verifiable information on these. Information which could not be verified has been omitted.

Extreme caution should be exercised in the use of information contained in this publication. The anonymity of members of the Fellowship must be preserved at all times. Before any phone number shown here is sent to any media outlet, the person or committee who answers the phone should be advised. Information about the meetings, their time, date, location, etc., should not be publicized without prior consent of the group that conducts the meeting. These types of public information efforts should always be coordinated and approved by area or regional public information committees.

In many cases, information for Hospital and Institution meetings is shown in the World Directory. For meetings of this type, which have some restrictions, we suggest contacting the group or institution before attending. This can frequently be done by utilizing the phonelines shown for the appropriate city or state.

This directory is provided as an adjunct to carrying the message to the addict who still suffers. We encourage all members of Narcotics Anonymous to use it well and often. The Fellowship will continue to expand as more addicts discover that recovery can be found by working the Twelve Steps and Traditions of Narcotics Anonymous.

TO THE FELLOWSHIP AND FRIENDS:

This printing of the World Directory has been compiled from information received at the WSO. Some of the information was incomplete or in error upon receipt. We have made every effort to correct errors and gather complete information by press time. For those instances when we could not verify any information as accurate, we have omitted it. For those instances when we had accurate yet incomplete information, we have printed it.

We recognize that this World Directory still contains some incorrect information. A letter or phone call can help us in our ongoing efforts to provide complete and accurate meeting information. We invite your help and assistance in these efforts.
