3. *The addition/substitution of personal stories compiled from our worldwide fellowship in the Basic Text."*

Motion #21: *"That all motions, amendments and any other input regarding revisions or additions to the Basic Text or the booklet Narcotics Anonymous (The Little White Book), be committed to the World Board who will compile and forward to the conference, in two years, a detailed proposal including options, budgets and timelines for those options." (Note: Before the vote, the chairperson stated that this will include motion #24.)*

This survey has been developed to help the World Board fulfill its responsibility to develop a report to conference participants at the 2000 WSC. We hope that the survey that is attached will provide us with an initial sense of what the fellowship would like to see in the development of and/or changes to our recovery literature. We encourage you to copy and distribute this survey to members, groups and service committees.

The World Board will use this information in our consideration of what type of proposals to develop for possible revisions to the Basic Text, the Little White Book and other recovery literature. These proposals will be presented to the fellowship for consideration in the 2000 *Conference Agenda Report*. The World Board would like to extend our thanks for your participation in this important project.

What New Literature Do We Need?

The following are issues that have been discussed over the years as things some of our members have wanted to see as (1) pieces of new literature to be developed, and/or (2) revisions to some of our existing literature.

Please **check one box for each topic** to indicate your opinion of how great our fellowship's need is for the following literature:
