

Welcome to the Basic Text/Little White Booklet Evaluation Project Survey

Narcotics Anonymous literature is a vital tool for our recovery. At the 2000 World Service Conference, a motion was passed for the World Board to start an evaluation process to see whether or not the fellowship desires changes to the Basic Text and the Little White Booklet. We need your help to complete our work.

The board has created a survey with the help of a consultant. By filling out this survey your input will assist the board in its task of preparing proposals for the fellowship's consideration in 2004. A component of this document is the Literature Assessment, which is included at the end of the survey.

Your opinion is important to us. We have three ways for you to return your completed survey:

- Complete the survey found here, by clicking on any of the appropriate "Basic Texts" on this page. Or you can download the survey in [RTF](#) or [PDF](#) format. (Click on link for that version).
- *Mail* the survey back to the address shown at the end of the survey you have downloaded.
- *Fax* it back to the number shown at the end of the survey you have downloaded.

The research consultant who has developed the survey will tally results to ensure that the survey results accurately represent your opinions. To maintain the accuracy of the data, please complete just one survey. Thank you in advance for your help! And please ask other members to complete this survey, too. The board needs you to complete your survey by December 2002.
