Other Issues that Will Be Discussed at WSC 2010

Those of you who read and discuss the *CAR* every two years will remember that the past several *CARs* have contained discussion questions, usually about the Issue Discussion Topics. This year, we don't have any particular questions to ask about the IDTs, but we are trying something new here on this summary page in briefly mentioning some of the other issues that we know will be discussed at the conference. We encourage you to read the related essays in this *CAR*.

Service System (page 8)

At WSC 2010, we will be discussing options for improved service delivery throughout all components of our service system: structure, process, people, and resources. We want to forward these discussions through the 2010–2012 cycle. We encourage everyone to read the essay on page 8 to gain all of the background information and share your ideas with your delegate so that we can have fruitful discussions at the conference and beyond.

NAWS Resources (page 17)

We have all been affected by the economic downturn, some of us more directly than others. In this *CAR* we discuss NAWS resources, and the *Annual Report* provides more detailed information. We are continuing to seek ways to cut costs at world services while reducing the impact on service delivery as much as possible. One of the items we will discuss with conference participants is *The NA Way Magazine*. We understand there is some benefit from this magazine to our members and to NAWS, yet we are aware of the waste that comes from automatic distribution of paper copies to all registered NA groups. We would like to discuss possible solutions with conference participants and to try changes in distribution before making any changes to policy. Please read the essay on page 17 and help your delegate come ready to discuss our *NA Way* distribution practices.

Literature Development (page 28)

Several of the regional motions in this *CAR* focus on some aspect of the literature development process. We hope to have a more holistic discussion at the conference about the literature development process, including how to more effectively involve interested members. How realistic

2010 CAR Motions

is our current review and input process with our worldwide membership, and does this process positively affect our literature? Does a lengthy approval process make sense when approval is simply a “yes” or “no” for a completed work? What literature processes would serve us best today and in the future? We look forward to discussing all of these issues at the conference. Please read the essay on page 28 and share your thoughts with your delegate.
